BILL GWYNNE RALLYSCHOOL AND MOTORSPORT CORACLE STAGES 2007

FOREWORD

Carmarthen and Epynt Motor Clubs would like to take this opportunity to welcome you to the **Bill Gwynne Rallyschool and Motorsport Coracle Stages 2007**.

We are pleased to welcome **The Bill Gwynne Rallyschool** and **Bill Gwynne Motorsport** to this event. Both organisations are well known and enthusiastic supporters of rallying and we are delighted that they join us as title sponsors for 2007.

Thanks to the enthusiastic co-operation of the **Bennett-Evans family**, the rally will once again return to the **Sweet Lamb Complex**, with scrutineering, servicing and the finishing ceremony all situated within the popular Mid Wales test venue.

We will be allowing pace notes this year. MC1 can only be reached via the public highway so cars will need to be road legal, the remainder of the event takes place on private land.

The intention is to again promote a compact, no frills event, offering approximately 40 loose surface stage miles with a central service area - thereby catering for those without a service crew and who may wish to leave their service vehicle in the service area for the duration of the rally. The format has proved popular with both competitors and spectators in the past and the rally earned the prestigious awards of **best event in the 2003 and 2006 WAMC Clubmans Forestry Rally championship and also the 2003 ASWMC Loose Surface Stage Championship**.

Wishing you an enjoyable rally.

15. DOCUMENTATION

Entrants will be supplied with a road book and time cards at signing on. These documents will provide all the necessary information to enable competitors to comply with K32. Competitors may be required to make up lateness at rest halts.

16. SERVICING

Servicing is defined as work being carried out on the car by any person other than the competing crew, or the use of any parts or tools not carried in the competing car. There will be service areas at strategic points where work may be carried out by the Service Crew of the competing car. These will only be accessible to competitors and service vehicles bearing official Service Plates, which must be attached to the bonnet.

Crews may work unassisted on their own cars as described in K34.1.3.

No other areas may be used by service vehicles. All other areas will be Out-of-Bounds to the Service Crews and Vehicles unless otherwise stated in the road book. If a Service Vehicle is observed in an Out-of-Bounds area or with its service plate removed the associated competing car will be excluded.

Service Crews will be subject to the same regulations as competitors regarding noise, bad driving manners, etc, and marshals have been instructed to note any infringement of these rules. Competitors are responsible for ensuring that their service crews understand and comply with this regulation and that at all times the service vehicles bear an official plate showing the competitors rally number.

17. IDENTIFICATION

Competitors will be identified by numbered rally plates supplied by the organisers which must be fixed to the front and rear of the vehicle and by 9" high black numbers on a white background on both sides of the vehicle. Rally Marketing will be present at scrutineering for the sale of numbers. Competitors will be responsible for maintaining these identifications in a legible condition during the event and their removal after the event or upon retirement.

Competitors will also identified by high visibility numbers supplied by the organisers **to be fixed on both rear side windows.**

18. CONTROLS AND TIMING

The event will be run using Target Timing (K30).

The rally will be divided into Road Sections and Special Stages.

All controls other than Passage Controls (PCs) and Route Checks will be Time Controls (TCs). Each road section will be allotted a Target Time based on approximately 28 mph average or less and a competitor can calculate his Due Time of arrival at any TC by adding his Target Time to his actual time of departure from the preceding TC. On any

Road Section following a Special Stage three or four minutes extra will be allowed over the set average speed to account for any delays at the Special Stage Finish.

All Special Stages will have a Bogey Time set at 60 mph and a Target Time set at approximately 30 mph. Competitors will receive penalties as follows:-

- (i) Under Bogey - Bogey Time
- (ii) Over Bogey under Target - Actual Time Taken
- (iii) Over Target - Target Time (No extra time penalties)

However, excess lateness taken over Target on Road Sections and Special Stages is cumulative and once lost cannot be regained.

When accumulated lateness between any two adjacent Main Controls exceeds the permitted maximum of 10 minutes a competitor will be excluded.

Should any recorded time not be legible or not appear authentic the organisers may use any means at their disposal to establish a time.

The following titles shall describe the various types of Time Controls:

(See K28 for description of signs).

(a) Main Controls (MC - Signs 1 and 2)

- (i) Main controls will be situated restart (subject to 18(a)(iii) above) at the Start and Finish of the Rally, immediately before and after any Rest Halt/Service Area, or at any other specified point.
- (ii) At an MC after a rest halt Competitors will restart at one minute intervals in order of their arrival at the MC immediately preceding that halt.
- (iii) Each competitor will be given a due starting time from any MC and the difference between this time and his actual starting time will be counted towards exclusion for overall lateness. Also a time penalty will be applied.
- (iv) Competitors not excluded by reason of having accumulated more than the maximum allowed lateness will from any MC with zero lateness, i.e. lateness is only accumulated between two adjacent MC's.

(b) Special Stage Arrival Controls (SSA - Signs 1 and 2)

On arrival at SSA a competitor will receive an arrival time only when he is ready to start the stage (helmets on etc.). A competitor who is early may wait for his Due Time subject to K29.3. A provisional start time for the stage will be allocated in accordance with K30.4(k). He must then proceed immediately to the Start Line.

(c) Special Stage Start Control (SSS - Sign 3)

At the SSS a Competitor will be given a start time for the Stage in hours, minutes and seconds and will normally coincide with the provisional time allocated at the arrival control. Once a competitor has clocked in at an SSA the competitor must be ready to start the stage except as laid down in K30.4(k). The Marshal will count the competitor down in accordance with K25.12 and will raise the flag at Zero, which will be the signal to start.

As each section is timed separately the time taken from SSA to SSS is Dead Time and delays are automatically allowed for. The control area between Sign 1 at the SSA and Sign 3 at the SSS will be parc ferme

(d) Special Stage Finish Control (SSF - Signs 4, 5 and 7)

At the SSF a competitor will receive his finish time in hours, minutes and seconds. This time in hours and minutes will be his start time for the following Road Section. Any competitor who fails to stop at the STOP Line must not, under pain of exclusion, reverse to the stop line, but must return on foot.

(e) Passage Control (PC)

At certain points indicated in the Road Book the organisers may establish PCs in order to collect Time Cards from competitors or for other purposes. There will be no official times recorded at these controls, but a competitor failing to provide the necessary documents at any PC will be deemed not to have visited that control.

It is a competitor's responsibility to ensure that his times are correctly recorded and handed in when and where instructed. Once a time has been accepted by a Competitor **NO FURTHER CLAIMS WILL BE ENTERTAINED**. Any adjustment caused by a Timekeeper's error **MUST** be made at the Control in question.

Caution boards may be used to give advanced warning of hazards and will be sited in accordance with K28.9.

19. PENALTIES

Competitors will start with zero marks. Classification for the order of merit will be by reference to total marks lost, the winner being the competitor with the least total penalty.

Penalties will be as K31 except:

- 1) Not complying with a requirement of the Road Book or these SR's for which no other penalty is specified - 10 minutes

The following offences will carry a penalty of Exclusion from results:

- 2) Not reporting at or not providing proof of visiting a control or check
