Carmarthen Motor Club is once again running the very popular *K&N Filters Rally* at The Welsh Motor Sports Centre, Pembrey on **Sunday 29th December 2002**. The intention is to promote a compact event offering approximately 50 stage miles. Servicing is contained within a central area, catering for those without a service crew who may wish to leave their support vehicle in the service area during the rally.

The rally also gives competitors the ideal chance to shake down their cars in readiness for the new season and also gives everyone the chance of getting some much needed fresh air over the Christmas & New Year Festivities.
